 = \*Crescent beads are flat and crescent-shaped with a hole at either end. For this design, you will be turning them so that the pointed tips face downward as you stack three Crescent beads together so that they sit side-by-side with their rounded sides facing up to form a hump, of sorts.

## MATERIALS

(for a 6.5-inch bracelet, not including clasp)

- About 3 yards of 6 lb. FireLine
- About 200 Miyuki size 11/0 rocaille seed beads (Toho brand may prove to be a bit too fat)
- About 16 size 8/0 rocaille seed beads
- About 14 Color1 Crescent beads\*
- About 7 Color2 Crescent beads\*
- About 8 size 6x6mm Czech 2-hole tile beads (Czechmates or any 6x6mm brand)  
**NEW! Czechmates 3x6mm Brick and 7mm Cabochon beads, as well as 8mm Candy beads, also work great instead of Tile beads!**
- clasp

\* You can, of course, use just one color of Crescent beads or three different colors.

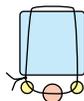

**For a wrap bracelet, simply triple or quadruple the length of the band and the number of beads used!**

**STEP 1:** Thread your needle with about 3 yards of FireLine (or start with a length that you feel comfortable with and add more later).

Leaving about a 10-inch tail for attaching the clasp, string an 11/0 seed bead, an 8/0 seed bead and an 11/0 seed bead.

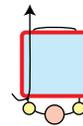

Holding on to the end of the thread, go up through the right hole of a Tile bead, around and down through the left hole of this same Tile bead.

Tie the beads together with a tight double knot:

Go down through the 11/0 seed bead below (so that the new 11/0 seed bead fills the gap), the right hole of the Tile bead and the two 11/0 seed beads (all beads highlighted in **RED**):

Use your extra tail thread to go back through the beads along the outer edge of both sides of your bracelet. This will help straighten out any seed beads along the motif edges that seem wonky.

Knot in several places and cut your thread.

**STEP 33:** To attach the clasp to the other end of your bracelet, thread your needle with the tail thread from Step 1. Go across through the seed beads highlighted in **RED**:

Repeat Steps 27-32.

For a wrap bracelet, simply triple or quadruple the length of the band and the number of beads used.
