NOTE: If you want to add some length, just add more seed beads or 3mm beads.

Go back around through the beads that you just added and the clasp several times to reinforce your attachment to the clasp.

Weave back into your bracelet, knot in several places and then cut your thread.

To attach your clasp to the other end of your bracelet, thread your needle with the tail thread from Step 1, weave up through the beads and exit from the top-most 3mm bead. Repeat Step 29.
